8:25 Sat. a.m.
Aug. 6 1977

Dear Harold W.

How are you? a little better, I'm hoping. I am taking the liberty of sending you this, case you are getting some analysis for that I sent, and since soon I will be corresponding with you — sending any data.

Just wanted to tell you that I went out yesterday a.m., and as they park cars along this street (ajacent to the Business area) soon would be like other past "refuse",

(over pls)

had been washed away, etc., by the city sweeping machine that comes along 2-5 a.m. some days.

I got several items of material and put them in a sack, am holding them. It's mostly (cold) molten metal bits of cloth or whatever is in the black dust, etc. I hear that there were four such "burnt cars" during the past few yrs. same spot, or vic.

My landlady and another elderly woman who lives in the large white house owned by a "Mr. Lewis (or Louis?)" and for whom my 26yr old

nephew who lives in River Oaks (west side) and his boss – a C.C. "Corky" McKaroviich who, knows Jon Evans, sheriff, and Pres. Nixon etc. ± do work sometimes on the house.

~~I am on the~~ manager – a "Florence" – elderly woman – went away yesterday a.m. I had noticed, as I went by, out of state lic – cars parked there from time to time. I've lived here about 4-5 yrs., returning.

I am enclosing a map portion showing this street. It is short, and I understand policemen or security guards live along here.

(over)

I'm writing you this then. I still have not heard personally from my son, just what landlady says. Well, I've quit and take my Yoga exercises, as I'm not feeling very well. A leg is injured, and I'm trying to avoid going for a checkup, myself. A sister of mine is having heart surgery at Lubbock, I'm wondering whether she'll pull through. I have a week's time now - left. and settle it, spending time at library.

How do you like this map. I helped make it - where I work.

Best -

- Charles S.
